Littleton, CO 80127

GOAL

I am interested in identifying the types of jobs are available in Software Engineering, and am looking for jobs that involve web development, mobile development, or software development.

EDUCATION

Colorado School of Mines - B.S. Computer Science:

      Senior, Graduating May 2013:

      Honors/Activities

- Dean's List (1 semester)
- Honor Roll (1 semester)
- Mines Little Theatre (6 Semesters)
- Colorado School of Mines Broadcast Club (2 Semesters)

      Leadership

- EPICS Project Team Leader
- Summer Session Scrum Master - 4 person team

Dakota Ridge High School, Littleton. CO - Graduated 2009 with Honors:

      Honors/Activities

- AP Scholar with Distinction
- Theatre (2 years)
- Robotics Club (3 years- Vice President)

EXPERIENCE

Summer Intern at Symplified - 2012

      Worked on a 4 person team. Used an Agile development method to produce programs to interact with RESTful web services. I was the scrum master and wrote the Ruby and PHP code to encrypt data sent data, meaningfully parse returned data and interact with the servers, along with a basic site in HTML for the PHP code. The code we produced was used as a foundation for more advanced applications.

SKILLS

Familiar	Experienced	Advanced
Scheme	C++	Java
Python	Android	Linux
	Ruby	
	Web Development(PHP, HTML, CSS, Rails)	

VOLUNTEERING

- Judge in NREL Junior Solar Sprint and Hydrogen Fuel Cell Car Competition
- Judge in Powderhorn Elementary School Science Fair
